|                  |                         |                              |                                 |
|------------------|-------------------------|------------------------------|---------------------------------|
| <b>EDUCATION</b> | University of Rochester | Ph.D., Materials Science     | 2014                            |
|                  | University of Rochester | M.S., Mechanical Engineering | 2010                            |
|                  | University of Rochester | B.S., Mechanical Engineering | 2008 ( <i>magna cum laude</i> ) |

**SPECIALTIES** My research group applies interdisciplinary engineering approaches to address multiscale research challenges across two primary research thrusts: **manufacturing sustainability** (including life cycle assessment for production systems and supply chains) and **mechanics of multi-material systems** (including adhesion testing and fracture mechanics, particularly of coatings and multilayers). In addition to my core technical competencies, my approach maximizes research impact and reach by leveraging a decade of science-policy experience in Washington. Current research interests include:

- energy and emissions accounting in manufacturing systems and product supply chains
- environmentally extended input-output (EEIO) modeling with energy systems integration
- life cycle assessment (LCA) and techno-economic analysis (TEA) for early-stage technologies
- eco-informed product design
- fracture mechanics at solid-solid interfaces
- adhesion of paints, coatings, multilayers, and composites
- applied failure analysis for interlayer delamination and other interfacial problems

## PROFESSIONAL EXPERIENCE

|                             |                                                                                                                                                                                                                                                                                                   |
|-----------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2026 – 2027                 | <b>University of Texas at Austin</b> , Austin, TX<br><i>Donald D. Harrington Faculty Fellow (visiting professor), UT Energy Institute</i>                                                                                                                                                         |
| 2023 – present              | <b>Purdue University</b> , West Lafayette, IN<br><i>Assistant Professor of Mechanical Engineering (ME) and Sustainability Engineering &amp; Environmental Engineering (SEE); Faculty Affiliate, Purdue University Institute for a Sustainable Future (ISF)</i>                                    |
| 2020 – 2023;<br>2014 – 2017 | <b>Energetics</b> , a contractor to the U.S. Department of Energy (DOE), Washington, DC<br><i>Senior Scientist and Program Manager for Analysis &amp; Modeling. Promoted from prior roles including: Associate Scientist, Staff Scientist, Senior Scientist, and Senior Subject Matter Expert</i> |
| 2017 – 2020                 | <b>U.S. Naval Research Laboratory</b> , U.S. Department of Defense (DOD), Washington, DC<br><i>American Society for Engineering Education (ASEE) NRL Postdoctoral Research Fellow</i>                                                                                                             |
| 2013 – 2014                 | <b>National Highway Traffic Safety Administration</b> , U.S. Dept. of Transportation (DOT), Washington, DC<br><i>Safety Standards Engineer – Vehicle Dynamics Division – Rulemaking</i>                                                                                                           |
| 2010 – 2013                 | <b>Laboratory for Laser Energetics</b> , University of Rochester, Rochester, NY<br><i>Frank J. Horton Graduate Research Fellow</i>                                                                                                                                                                |
| 2008 – 2010                 | <b>University of Rochester Mechanical Engineering Department</b> , Rochester, NY<br><i>Graduate Research Assistant and Graduate Teaching Assistant; Dean's Graduate Fellow</i>                                                                                                                    |

## SELECTED AWARDS & RECOGNITIONS

### Major National and International Awards

- **Harrington Faculty Fellowship** at the University of Texas at Austin (5 fellows selected from an international pool of early-career applicants, total award package >\$250,000), 2026
- American Center for Life Cycle Assessment (ACLCA) **Michael Levy Rising Star Award** (1 given per year), 2025
- DOE **EnergyTech University Prize** Faculty Explorer Award (10 winners nationally), 2024
- DOE **Secretary's Appreciation Award** (one of DOE's highest civil service honors, awarded in-person by the Secretary of Energy; received for contributions to the 2015 Quadrennial Technology Review), 2015
- DOT **Secretary's Honor Award** (one of DOT's highest civil service honors, awarded in-person by the Secretary of Transportation; received for STEM engagement with at-risk youth), 2014

## **Other Significant Honors**

- Purdue **Outstanding Engineering Instructor** recognition (for top-quartile instructor evaluation ratings), 2025
- NSF **Young Investigator Travel Grants**, REMADE Circular Economy Tech Summit & Conference, 2024, 2025
- **Keynote Speaker**, Sustainable Metals Manufacturing Workshop, Pacific Northwest National Laboratory, 2023
- Energetics **Shooting Star Award** (peer-nominated award for innovation and excellence across the company), 2022
- Energetics **Above and Beyond Awards** (with spot bonuses for outstanding job performance), 2015, 2016, 2021, 2022
- University of Rochester **Outstanding Graduate Teaching Assistant** (~12 awardees university-wide), 2009
- University of Rochester **Helmut Weymann Prize** (1 given per year, for excellence in engineering experimentation by an undergraduate student), 2008
- B.S. degree granted with *Highest Distinction in Mechanical Engineering* (highest departmental honors), 2008
- Elected to **Tau Beta Pi**, 2007

## **Other Research Fellowships & Scholarships**

- American Society for Engineering Education Postdoctoral Fellowship, U.S. Naval Research Laboratory, 2017-2020
- Frank J. Horton Graduate Research Fellowship, University of Rochester Laboratory for Laser Energetics, 2010-2013
- Pandeli Durbetaki Graduate Fellowship, University of Rochester, 2009-2010
- Dean's Graduate Fellowship, University of Rochester, 2009-2010
- Rush Rhees Scholarship, University of Rochester, 2004-2008

## **Selected Student Awards (of Purdue Mentees)**

- **Industry Awards:** NobleReach Scholar (NobleReach Foundation's highly selective civic leadership award for early-career STEM professionals) – Andrew Morrissey, 2026-2027 cohort.
- **Best Poster Awards:** ACLCA Student Poster Competition (selected from a field of ~25 entries per year): 1<sup>st</sup> Place – Catherine Mejia, 2024. 2<sup>nd</sup> Place – Elizabeth Kelley, 2024. 1<sup>st</sup> Place – Heyichen Xu, 2025.
- **Competitive Graduate Fellowships:** Purdue Presidential Excellence Award – Jenny Kwak, 2025. NSF National Research Traineeship – William Lewis, 2025; Jenny Kwak, 2026. Purdue Ross Fellowship – Jenny Kwak, 2025. Purdue SEE Discovery Fellowship – Tripta Bhattacharjee, 2023; William Lewis, 2025.
- **Undergraduate Research Awards:** Bottomley Research Scholarship in ME – Andrew Morrissey, 2024
- **Student Travel Grants:** Purdue Institute for a Sustainable Future Student Travel Grant – Tripta Bhattacharjee, 2025. Gordon Research Seminar Student Travel Grant – William Lewis, 2026.

## **FUNDING**

### **Scientific Grants**

- *A Physically Extended IO Model for Supply Chain Scenario Modeling*. National Laboratory of the Rockies (\$335,997). PI. Liddell share 90%. In negotiations.
- *Integrated Passive and Active Underwater Wave Control for Comprehensive Noise Abatement in Offshore Wind Installation*. DOE Energy Efficiency & Renewable Energy (\$5,128,956). Co-PI. Liddell share 25%. In negotiations.
- *Input-Output Analysis of Mass Flows in Manufacturing Production Networks*. National Renewable Energy Laboratory (\$186,091). PI. Liddell share 100%. 03/2024 – 12/2025.
- *Optimized Radio Frequency (RF) Processing for Safer & More Sustainable Drying of Dairy Forage*. Purdue University Ag-Eng Seed Grant (\$50,000). Co-PI. Liddell share 50%. 01/2024-12/2024.

### **Prizes & Microgrants**

- *Harrington Faculty Fellowship*. University of Texas at Austin. Discretionary research funds (\$75,000). 08/2026.
- *Teaching the Valley of Death: Learning Resources for Techno-Economics of Emerging Technologies*. DOE Office of Technology Transitions. Single PI prize (\$4,000). 01/2024.
- *NSF Young Investigator Travel Grant* for the REMADE Circular Economy Tech Summit & Conference: two awards (\$2,500 each). 04/2024 and 04/2025.
- *Honorarium*: DOE Office of Technology Transitions (\$850). 06/2024.
- *Honorarium*: DOE Advanced Materials & Manufacturing Technologies Office (\$1,000). 05/2024.

## **LEADERSHIP & SERVICE**

### **Affiliations**

**School of Mechanical Engineering (ME):** 75% appointment. **School of Sustainability Engineering & Environmental Engineering (SEE):** 25% appointment. **Institute for a Sustainable Future:** faculty affiliate. **Purdue Institute for Polymers Innovation (PIPI):** faculty affiliate. **Manufacturing & Materials Research Laboratories (MMRL):** core faculty.

### **Student Advising**

**Graduate Advising:** Major professor and committee chair for 5 current Ph.D. students and 4 M.S. alumni. Advisory committee member for 11 additional current Ph.D. students and 3 alumni (2 Ph.D., 1 M.S.). **Undergraduate Research &**

**Advising:** Served as instructor of record for 7 credit-bearing research projects for 6 undergraduate students (2023-present). Faculty advisor for 5 additional undergraduate students (2024-present). **Student Organization Advising:** Faculty advisor for Purdue Solar Racing competition team (2025-2026) and Purdue Green Leaps student club (2023-2026).

#### Professional Society Membership & Leadership

**Leadership Roles:** ASME: Secretary of University of Rochester Student Section; 2007-2008. American Center for Life Cycle Assessment (ACLCA): Education Committee; 2023-present. The Adhesion Society: Sustainability Chair; 2024-present. International Society for Industrial Ecology: Board Member of the Life Cycle Sustainability Assessment Section; 2026-present.

**Society Memberships:** ASME; 2006-present. Tau Beta Pi; 2007-present. Optica; 2010-2023. The Adhesion Society; 2019-2020 and 2023-present. American Center for Life Cycle Assessment; 2022-present. International Society for Industrial Ecology; 2026-present.

#### Conference Leadership

**Conference Planning Committees:** Served/serving on conference planning committees for the ACLCA Conference (2023, 2024, 2025); the Adhesion Society Annual Meeting (2025); the Global Product Sustainability Symposium (GPSS) (2026); and the Society of Engineering Science (SES) Technical Meeting (2026). **Conference Session Organizer or Chair Roles:** Organized and chaired the sustainability track (4 sessions) at the Adhesion Society Annual Meeting; 2025. Co-organized the Industrial Decarbonization session at the Global Product Sustainability Symposium, 2024. Co-organizing the Industry track for the Society of Engineering Science (SES) Technical Meeting; 2026. **Short Courses at Conferences:** Taught the short course “Industrial Carbon Accounting” at ACLCA’s LCA Institute in 2024 and 2025, and taught “Why LCA Results Change: Data, Assumptions, and Uncertainty” in 2026. **Special Events:** Organized and co-facilitated the conference-wide ACLCA Challenge Session: “A Sustainability Premortem” (~250 participants), 2024. Organized and co-chaired the conference-wide American Council for an Energy-Efficient Economy (ACEEE) Action Session: “Strategies for Decarbonizing Industry: An Interactive Discussion & Debate” (~200 participants), 2023.

#### Participation in National and International Research Consortia

**LCA for Emerging Technologies Research Network:** Active researcher (meets biweekly; research output includes 5 conference presentations, 3 in-person workshops, and 1 journal manuscript; 2022-present). **Macroeconomics for Net-Zero Consortium:** Active researcher (meets quarterly; in-person workshop planning underway); 2026-present. **Planetary Limits Academic Network:** Active researcher (meets monthly; co-authored book forthcoming from *Cambridge University Press* in 2026); 2021-present. **IEA Technical Collaboration Program on Advanced Materials for Transportation (IEA TCP-AMT):** U.S. delegate from DOE; 2022-2023. **USDRIE Government-Industry Partnership: Materials Technical Team (MTT):** Technical representative for DOE; 2022-2023.

#### Review Activity for Journals

Reviewer (2015-present) for materials and sustainability engineering journals including: Applied Optics; Environmental Science & Technology; International Journal of Energy Research; International Journal of Life Cycle Assessment; Journal of Industrial Ecology; Optics Letters; Resources, Conservation, and Recycling; Sustainable Development; Sustainable Production and Consumption.

#### Review Activity for Grant Agencies

Panel reviewer for the following agencies and offices (2020-present): DOE Advanced Research Projects Agency – Energy (ARPA-e – 1 panel), DOE Office of Technology Transitions (OTT – 1 panel), DOE Advanced Materials & Manufacturing Technologies Office (AMMTO – 1 panel), DOE Vehicle Technologies Office (VTO – 3 panels).

#### Purdue Committees Served

For **Purdue Mechanical Engineering:** Manufacturing & Design Area Committee; 2023-present. Solid Mechanics Area Committee; 2023-present. ME Faculty Review Committees for the College of Engineering Outstanding Postdoc Award (2025) and the ME Postdoctoral Fellowship (2025). For **Purdue Sustainability Engineering & Environmental Engineering:** SEE Graduate Committee; 2023-present. SEE Laboratory Safety Committee (faculty representative); 2024-present. SEE Ph.D. Qualifying Exam - Examining Committee Member; 2025. For **Purdue College of Engineering:** College of Engineering Graduate Fellowship Review Committee; 2025.

#### K-12 Outreach

Competition Judge for the **Rube Goldberg 2025 Machine Contest**, West Lafayette, IN; 2025. Competition Official (science judge) in the **National Science Bowl**, Washington, DC; 2023. Science Advisor for **Open Montessori** (an educational nonprofit focused on making Montessori materials broadly available through 3D printing), Lancaster, PA; 2020-2023. Member of Brent Elementary School “**Science Brain Trust**” (a volunteer group to support elementary science faculty in DC Public Schools), Washington, DC; 2021-2023. STEM mentor and job skills coach in the **Living Classrooms Fresh Start Program** (a program that served out-of-school, at-risk teenage youth), Washington, DC; 2014-2015. Youth outreach and kit assembly volunteer for OSA’s (now Optica’s) **Optics Suitcase** hands-on learning kit for middle schoolers; 2010-2013.

## TEACHING

#### Credit-bearing courses at Purdue:

|             |                                         |                |                                      |
|-------------|-----------------------------------------|----------------|--------------------------------------|
| Fall 2023   | ME 46300 Engineering Design             | Enrollment: 28 | Mean Instructor Rating: 4.63 / 5.00  |
| Spring 2024 | EEE 56000 Industrial Carbon Accounting  | Enrollment: 33 | Mean Instructor Rating: 4.69 / 5.00  |
| Fall 2024   | ME 46300 Engineering Design             | Enrollment: 21 | Mean Instructor Rating: 4.62 / 5.00  |
| Spring 2025 | EEE 59500 Carbon Acct. & Sustainability | Enrollment: 22 | Mean Instructor Rating: 4.77 / 5.00* |
| Fall 2025   | ME 44400 CAD & Prototyping – Lab        | Enrollment: 84 | Mean Instructor Rating: 4.30 / 5.00* |
| Fall 2025   | ME 44400 CAD & Prototyping – Lecture    | Enrollment: 79 | Mean Instructor Rating: 4.17 / 5.00* |
| Fall 2025   | EEE 690 Graduate Seminar                | Enrollment: 35 | Mean Instructor Rating: 4.71 / 5.00* |

\* Outstanding Engineering Instructor recognition for this semester (for teaching effectiveness ratings in the top quartile)

#### Short courses at Purdue and elsewhere:

|             |                                              |                                                |
|-------------|----------------------------------------------|------------------------------------------------|
| Summer 2024 | ME 297 Designing a Product with a 3D Printer | Purdue Summer College for High School Students |
| Fall 2024   | Introduction to Carbon Accounting            | Short course at the 2024 LCA Institute (ACLCA) |
| Spring 2025 | Introduction to Carbon Accounting            | Short course at the 2025 LCA Institute (ACLCA) |

## STUDENT ADVISING & MENTORSHIP

#### Student Clubs Advised

Purdue Solar Racing (2025-2026) <https://purduesolar.org/> | Green Leaps (2024-2026)

#### Graduate Students Supervised at Purdue (as Chair or Co-Chair)

| <b><i>Graduation Year</i></b> | <b><i>Student Name</i></b> | <b><i>Degree</i></b>                          |
|-------------------------------|----------------------------|-----------------------------------------------|
| 2025                          | Elizabeth Kelley           | M.S., Environmental & Ecological Engineering  |
| 2025                          | Sanatkumar Rajagopalan     | M.S., Mechanical Engineering                  |
| 2025                          | Catherine Mejia Melara     | M.S., Environmental & Ecological Engineering  |
| 2026                          | Andrew Morrissey           | M.S., Mechanical Engineering                  |
| 2028 (Expected)               | Tripta Bhattacharjee       | Ph.D., Environmental & Ecological Engineering |
| 2028 (Expected)               | Heyichen Xu                | Ph.D., Environmental & Ecological Engineering |
| 2029 (Expected)               | Zubair Mumin Wahed         | Ph.D., Mechanical Engineering                 |
| 2029 (Expected)               | Gyuna (“Jenny”) Kwak       | Ph.D., Environmental & Ecological Engineering |
| 2030 (Expected)               | William Lewis              | Ph.D., Environmental & Ecological Engineering |

#### Graduate Students Mentored at Purdue (as Advisory Committee Member)

| <b><i>Graduation Year</i></b> | <b><i>Student Name</i></b> | <b><i>Degree</i></b>                          |
|-------------------------------|----------------------------|-----------------------------------------------|
| 2025                          | Venkat Roy                 | Ph.D., Environmental & Ecological Engineering |
| 2026                          | Seungho Lee                | M.S., Industrial Engineering                  |
| 2026                          | Yue Yao                    | Ph.D., Environmental & Ecological Engineering |
| 2026 (Expected)               | Xiaohan Wu                 | Ph.D., Environmental & Ecological Engineering |
| 2026 (Expected)               | Mukhamad (“Mo”) Suhermanto | Ph.D., Environmental & Ecological Engineering |
| 2026 (Expected)               | Seyi Ogunmodede            | Ph.D., Computer & Information Technology      |
| 2027 (Expected)               | Christopher Copeland       | Ph.D., Environmental & Ecological Engineering |
| 2027 (Expected)               | Albin John                 | Ph.D., Environmental & Ecological Engineering |
| 2027 (Expected)               | Andrew Witty               | Ph.D., Mechanical Engineering                 |
| 2028 (Expected)               | Aishwary Shrivastava       | Ph.D., Mechanical Engineering                 |
| 2028 (Expected)               | Jiayu Geng                 | Ph.D., Environmental & Ecological Engineering |
| 2029 (Expected)               | Camila de Moraes Cassunde  | Ph.D., Environmental & Ecological Engineering |
| 2030 (Expected)               | Matthew Ellett             | Ph.D., Environmental & Ecological Engineering |
| 2030 (Expected)               | Yimin Zeng                 | Ph.D., Mechanical Engineering                 |

#### Undergraduate Student Researchers Supervised (from Purdue)

| <b><i>Graduation Year</i></b> | <b><i>Student Name</i></b> | <b><i>Degree</i></b>                         |
|-------------------------------|----------------------------|----------------------------------------------|
| 2024                          | Donghyun (“Han”) Lee       | B.S., Mechanical Engineering                 |
| 2024                          | John Dec                   | B.S., Mechanical Engineering                 |
| 2025                          | Joel Kerr                  | B.S., Mechanical Engineering                 |
| 2025                          | Andrew Morrissey           | B.S., Mechanical Engineering                 |
| 2027 (Expected)               | Yuvraj Jhanwar             | B.S., Mechanical Engineering                 |
| 2027 (Expected)               | Olivia Helmuth             | B.S., Environmental & Ecological Engineering |

#### Undergraduate Student Researchers Supervised (other universities)

| <b><i>Graduation Year</i></b> | <b><i>Student Name</i></b> | <b><i>Degree</i></b>                                  |
|-------------------------------|----------------------------|-------------------------------------------------------|
| 2024                          | Kayla Huang                | B.S., Materials Science & Engineering, UIUC           |
| 2025                          | Myla Chappell              | B.S., Mechanical Engineering, Old Dominion University |

See *Leadership and Service* for additional student mentoring roles, including student organization advising and K12 outreach.

## PUBLICATIONS AND PRESENTATIONS

Note on author's name change: Work dated before June 2013 was published under my maiden name, **Heather P. Howard**.

► Mechanics and/or Materials Focus   ► Energy & Sustainability Focus

### Peer-Reviewed Journal Articles

## Invited Talks & Seminars

- 47. ► **H. P. H. Liddell**, “Why LCA Results Change: Data, Assumptions, and Uncertainty,” invited instructor for the 2026 *LCA Institute*, virtual, April 7, 2026.
- 48. ► **H. P. H. Liddell**, “Introduction to Carbon Accounting,” invited instructor for the 2025 *LCA Institute*, virtual, April 16, 2025.
- 49. ► **H. P. H. Liddell**, E. Kelley, and L. Wachs, “Data development for a physically extended EEIO model to support industrial decarbonization,” invited speaker for the DOE Industrial Efficiency & Decarbonization Office Strategic Analysis research seminar series, virtual, November 7, 2024.
- 50. ► **H. P. H. Liddell**, “Industrial Decarbonization Pathways for the United States,” invited speaker at the 2024 Global Product Systems Sustainability (GPSS) Workshop, University of Rhode Island, Kingston, RI, October 2-5, 2024.

51. ► D. R. Cooper, **H. P. H. Liddell**, R. Geyer, and D. C. A. Pigosso, “Industrial Decarbonization and Demand,” invited session co-chair at the 2024 Global Product Systems Sustainability (GPSS) Workshop, University of Rhode Island, Kingston, RI, October 2-5, 2024.
52. ► **H. P. H. Liddell**, P. Rao, and J. Cresko, “Challenge Session: Global Harmonization of LCA,” invited co-organizer and facilitator of plenary Challenge Session at the 2024 American Center for Life Cycle Assessment (ACLCA) Conference, Snowbird, UT, September 24-26, 2024.
53. ► **H. P. H. Liddell**, “Introduction to Carbon Accounting,” invited instructor for the *LCA Institute* at the 2024 American Center for Life Cycle Assessment (ACLCA) Conference, Snowbird, UT, September 24-26, 2024.
54. ► J. F. Hajjar, J. Jung, **H. P. H. Liddell**, S. Ukkusuri, M. Velay-Lizancos, and A. Varma, “Panel Discussion: Designing for Climate Change & Sustainability,” invited panelist for the *Purdue Engineering Distinguished Lecture Series*, post-lecture panel discussion featuring Prof. Jerome F. Hajjar. West Lafayette, IN, September 12, 2024.
55. ►► G. Wan, N. Deneke, **H. P. H. Liddell**, M. Seitz, J. Wilker, and L. Lopez, “Panel Discussion: Sustainability and Adhesion,” invited panelist at the 47<sup>th</sup> Annual Meeting of the Adhesion Society, Savannah, GA, February 11-14, 2024.
56. ►► **H. P. H. Liddell**, “The Role of Lightweighting in Decarbonizing the Electric Vehicle Fleet: Life-Cycle Opportunities and Tradeoffs for Automotive Materials Development,” invited speaker for a Materials Science & Engineering Research Seminar, Purdue University, West Lafayette, IN, February 23, 2024.
57. ►► **H. P. H. Liddell**, “Materials Development & Lightweighting for Electric Vehicle Decarbonization: An Environmental Life Cycle Perspective with an Outlook to 2050,” invited speaker for a Mechanical Engineering Research Seminar, IUPUI, Indianapolis, IN, November 9, 2023.
58. ►► **H. P. H. Liddell**, “Should We Lightweight Electric Vehicles? An Environmental Life Cycle Perspective with an Outlook to 2050,” invited speaker for an Environmental & Ecological Engineering Research Seminar, Purdue University, West Lafayette, IN, October 3, 2023.
59. ► **H. P. H. Liddell**, “Lightweighting in Electric Vehicles: A Prospective Life Cycle Opportunity Analysis,” invited presentation to the Environmental & Ecological Engineering External Advisory Committee, Purdue University, West Lafayette, IN, September 22, 2023.
60. ► J. Cresko, **H. P. H. Liddell**, A. Carpenter, C. Dollinger, T. Wenning, P. Stephens, D. Cooper, and A. Peterman, “Strategies for Decarbonizing Industry: An Interactive Discussion & Debate,” invited co-organizer of conference-wide Action Session at the ACEEE Industry Summer Study, Detroit, MI, July 10-13, 2023.
61. ► **H. P. H. Liddell**, “Sustainable Materials for Transportation Sector Decarbonization: A Life Cycle Perspective with an Outlook to 2050,” invited Keynote Address for the Sustainable Metals Manufacturing Workshop, Pacific Northwest National Laboratory, Richland, WA, March 29-30, 2023.
62. ► **H. P. H. Liddell**, S. Gage, A. Carpenter, and J. Cresko, “A Design-Integrated Framework for Evaluating the Sustainability Impacts of Materials Substitutions and Recycling Decisions,” invited speaker at the 10th International Congress on Sustainability Science & Engineering, virtual, September 13-15, 2021.
63. ► **H. Liddell**, C. Rusnak, N. Fleet, and S. Barber, 2018 Naval Research Laboratory Women in Science and Engineering (NRL WISE) Career Panel of Women Scientists, invited panelist, U.S. Naval Research Laboratory, Washington D.C., July 17, 2018.
64. ► **H. P. H. Liddell**, “Failure analysis and fracture mechanics model for delamination defects in multilayer optical coatings,” invited speaker for a Multifunctional Materials Branch Seminar, U.S. Naval Research Laboratory, Washington D.C., October 11, 2016.
65. ► J. C. Lambropoulos, K. Mehrotra, **H. P. Howard**, and S. D. Jacobs, “Glass ductility and fracture at the 50- to 100-nm scale,” co-author of an invited presentation at the OSA Imaging and Applied Optics Congress: Optical Fabrication and Testing, Monterey CA, June 24–27, 2012. [as H. P. Howard] ★
66. ► **H. P. Howard**, “Evaluating thermal stresses in large coated optics: substrate thickness effects,” invited speaker for a Mechanical Engineering Dept. Seminar, University of Rochester, Rochester NY, April 20, 2012. [as H. P. Howard]
67. ► **H. P. Howard**, “An improved cleaning method to enhance the damage threshold of MLD gratings,” invited speaker at the International Committee on Ultra-high Intensity Lasers (ICUIL) Conference, Mamaia, Romania, September 16–21, 2012. [as H. P. Howard]

## **Contributed Conference Presentations**

★ Starred contributions indicate that an accompanying proceedings paper was (or will be) published. Unstarred contributions were presentation-only.

68. ► W. R. Lewis and **H. P. H. Liddell**, “A Systematic Review of Approaches for Scenario Modeling of Industrial Energy Systems in Input-Output Models,” presented at the Gordon Research Conference on Industrial Ecology, Newry, ME, June 28–July 3, 2026. Poster.
69. ► G. Kwak and **H. P. H. Liddell**, “Life cycle greenhouse gas impacts of battery electric vehicle lightweighting under forward-looking grid and material scenarios,” presented at the International Symposium on Sustainable Systems and Technology 2026, Rochester, NY, June 16-18, 2026. Oral presentation.
70. ► A. Morrissey, S. Stencil, S. Ogunmodede, S. A. K. Karanam, C. Laux, N. Hartman, and **H. P. H. Liddell**, “Synchronized power metering and operation tracking for product-level energy and carbon footprinting,” presented at the ASME 2026 21st International Manufacturing Science and Engineering Conference (MSEC 2026), State College, PA, June 14-18, 2026. Oral presentation. ★
71. ► T. Bhattacharjee, E. Wachs, A. Carpenter, J. Cresko, and **H. P. H. Liddell**, “Extending the EEIO-IDA Tool with Physical Flow Modules: A Steel Industry Case Study,” presented at the 2nd Annual Conference of the National Sustainability Society, South Bend, IN, Oct 20-22, 2025. Oral presentation.
72. ► **H. P. H. Liddell**, T. Bhattacharjee, B. Kelley, L. Wachs, A. Carpenter, and J. Cresko, “Building a data foundation for a physically extended EEIO framework for the United States,” presented at the 2025 American Center for Life Cycle Assessment (ACLCA) Conference, Atlanta, GA, Sept. 15-18, 2025. Oral presentation.
73. ► **H. P. H. Liddell**, P. Rao, and J. Cresko, “Lessons from a Sustainability Premortem: Insights from ACLCA’s 2024 Challenge Session Workshop,” presented at the 2025 American Center for Life Cycle Assessment (ACLCA) Conference, Atlanta, GA, Sept. 15-18, 2025. Oral presentation.
74. ► H. Xu, K. Rosentrater, and **H. P. H. Liddell**, “How old is too old? Quantifying the problem of temporal representativeness in LCI data,” presented at the 2025 American Center for Life Cycle Assessment (ACLCA) Conference, Atlanta, GA, Sept. 15-18, 2025. Poster. (*Honors: first place in student poster competition*).
75. ► R. Woods-Robinson, L. Wachs, **H. P. H. Liddell**, W. Essouid, M. Kumar, D. Posen, J. Bergerson, “Enhancing Assessment Quality in LCA for Emerging Technologies,” presented as a Special Session at the International Sustainable Systems Symposium 2025, Minneapolis, MN, June 16-18, 2025. Workshop-style interactive presentation.
76. ► C. Laux, **H. P. H. Liddell**, S. Ogunmodede, S. Karanam, S. Prabhune, S. Stencil, B. Haley, and N. Hartman, “Real-Time Sustainable Impact: Integrating Value Stream and Life Cycle Assessment in a Model Factory,” presented at the 6th International Conference on Quality Innovation & Sustainability, Urbino, Italy, May 21-23, 2025. Oral presentation. ★
77. ► **H. P. H. Liddell**, B. Kelley, L. Wachs, A. Carpenter, and J. Cresko, “A physically extended EEIO framework for decarbonization and circularity assessment in United States manufacturing supply chains,” presented at the REMADE Circular Economy Tech Summit & Conference, Washington, DC, April 10-11, 2025. Oral presentation. ★
78. ► T. Bhattacharjee, J. Mulrow, and **H. P. H. Liddell**, “Re-Investment Rebound Dynamic in the Cement Industry,” presented at the 32<sup>nd</sup> CIRP Conference on Life Cycle Engineering (LCE 2025), Manchester, UK, April 7-9, 2025. Oral presentation. ★
79. ► E. G. Kelley, E. Wachs, and **H. P. H. Liddell**, “Data development for a physically extended EEIO model to assess the life cycle emissions intensity of U.S. manufactured goods on a mass basis,” presented at the 2024 American Center for Life Cycle Assessment (ACLCA) Conference, Snowbird, UT, September 24-26, 2024. Poster. (*Honors: second place in student poster competition*).
80. ► C. A. Mejia Melara, D. L. W. Smith, and **H. P. H. Liddell**, “Life-Cycle Impact Comparison of Two Industrial Drying Methods for Alfalfa Dairy Forage: Radiofrequency and Convective Drying,” presented at the 2024 American Center for Life Cycle Assessment (ACLCA) Conference, Snowbird, UT, September 24-26, 2024. Poster. (*Honors: first place in student poster competition*).
81. ► H. Chen, **H. P. H. Liddell**, and M. Carbajales-Dale, “Sustainability in Carbon Fiber Manufacturing: Insights from Life Cycle Assessment,” presented at the 2024 American Center for Life Cycle Assessment (ACLCA) Conference, Snowbird, UT, September 24-26, 2024. Oral presentation.
82. ► S. Ogunmodede, C. Laux, C. Elizabeth, S. Futerer, and **H. P. H. Liddell**, “Integrating Lean and Sustainability into a Curricular Framework,” presented at the 7<sup>th</sup> International Conference on Operational Excellence (OPEX) in Higher Education, Galway, Ireland, September 2-3, 2024. Poster.

83. ► J. Bergersen, M. Carbajales-Dale, G. Cooney, J. Cresko, A. Kirchofer, M. Kumar, **H. P. H. Liddell**, S. Moni, L. Peterson, Posen, D. I., Sleep, S., E. Wachs, R. Woods-Robinson, “LCA of emerging technologies: we can’t agree, so let’s stop trying,” Special Session at the International Symposium on Sustainable Systems and Technology (ISSST), Baltimore, MD, June 18-20, 2024. Workshop-style interactive presentation.
84. ► **H. P. H. Liddell**, B. Ray, and J. W. Cresko, “A retrospective time-series analysis of circular economy and industrial decarbonization metrics in the United States, 1998-2022,” presented at the REMADE Circular Economy Tech Summit & Conference, Washington, DC, April 10-11, 2024. Oral presentation. ★
85. ► **H. P. H. Liddell**, “Should we lightweight electric vehicles? A life cycle perspective with an outlook to 2050,” presented at TMS 2024, Energy Technologies and CO<sub>2</sub> Management Symposium, Orlando, FL, March 3-7, 2024. Oral presentation.
86. ► **H. P. H. Liddell**, “Crack path measurement for disambiguation of failure modes in pull-off adhesion tests,” presented at the 47<sup>th</sup> Annual Meeting of the Adhesion Society, Savannah, GA, February 11-14, 2024. Oral presentation.
87. ► D. A. Dillard, G. Dillingham, and **H. P. H. Liddell**, “Adhesive bondline thickness effects: reflecting on what we think we understand,” presented at the 47<sup>th</sup> Annual Meeting of the Adhesion Society, Savannah, GA, February 11-14, 2024. Oral presentation.
88. ► J. Cresko, A. Carpenter, P. Rao, S. Supekar, T. Uekert, D. Kamath, **H. P. H. Liddell**, P. Nagapurkar, and H. Fuchs, “Beyond industrial decarbonization: Pathways and challenges to sustainable manufacturing,” Special Session at the American Society for Life Cycle Assessment (ACLCA) 2023 Conference, Burlington, VT, September 26-28, 2023. Panel presentation.
89. ► K. Morrissey, S. Gause, C. Dollinger, **H. P. H. Liddell**, and J. Cresko, “Environmentally Extended Input-Output for Industrial Decarbonization Analysis (EEIO-IDA): A hands-on demo of a new Excel-based scenario modeling tool,” Special Session at the American Society for Life Cycle Assessment (ACLCA) 2023 Conference, Burlington, VT, September 26-28, 2023. Workshop-style interactive presentation.
90. ► K. Peretti, K. Morrissey, **H. P. H. Liddell**, M. Keane, A. Carpenter, M. Seitz, and J. Cresko, “LCA as a complementary tool for circular economy approaches: Applications and challenges,” Special Session at the American Society for Life Cycle Assessment (ACLCA) 2023 Conference, Burlington, VT, September 26-28, 2023. Workshop-style interactive presentation.
91. ► J. Steen, D. Thaller, **H. P. H. Liddell**, and J. Cresko, “A new DOE impact assessment tool: Techno-economic, Energy, and Carbon Heuristic Tool for Early-Stage Technologies (TECHTEST),” presented at the American Society for Life Cycle Assessment (ACLCA) 2023 Conference, Burlington, VT, September 26-28, 2023. Oral presentation.
92. ► S. Gause, **H. P. H. Liddell**, C. Dollinger, J. Steen, and J. Cresko, “Hotspot detection for industrial decarbonization opportunities using environmentally extended input-output (EEIO) modeling,” presented at the ACEEE Industry Summer Study, Detroit, MI, July 10-13, 2023. Oral presentation.
93. ► **H. P. H. Liddell**, S. Gause, C. Dollinger, J. Steen, and J. Cresko, “Environmentally extended input-output (EEIO) modeling for industrial decarbonization opportunity analysis: a circular economy case study,” presented at the REMADE Circular Economy Tech Summit & Conference, Washington, DC, March 20-21, 2023. Oral presentation. ★
94. ► **H. P. H. Liddell**, J. Gibbs, and S. Ollila, “A fleet-based statistical assessment of the prospective opportunity for electric vehicle lightweighting to reduce greenhouse gas emissions in the United States,” presented at the American Society for Life Cycle Assessment (ACLCA) 2022 Conference, virtual, November 7-12, 2022. Oral presentation.
95. ► S. Gause, **H. P. H. Liddell**, C. Dollinger, E. Yüzügüllü, J. Steen, and J. Cresko, “Application of environmentally extended input/output (EEIO) techniques for industrial decarbonization opportunity analysis,” presented at the American Society for Life Cycle Assessment (ACLCA) 2022 Conference, virtual, November 7-12, 2022. Oral presentation.
96. ► S. Supekar, C. McMillan, **H. P. H. Liddell**, A. Carpenter, and S. Nimbalkar, “Developing shared foundational datasets for industrial modeling,” presented as a Special Session at the American Society for Life Cycle Assessment (ACLCA) 2022 Conference, virtual, November 7-12, 2022. Oral presentation.
97. ► J. Bergerson, D. Posen, M. Carbajales-Dale, S. Moni, A. Kirchofer, **H. P. H. Liddell**, et al., “Life Cycle Assessment of Emerging Technologies: Update on the SETAC/ACLCA Working Group Progress,” 2022 International Symposium on Sustainable Systems and Technology (ISSST), Pittsburgh, PA, June 21-23, 2022. Oral presentation.

98. ► **H. P. H. Liddell**, I. Atakpa, S. Brueske, A. Carpenter, and J. Cresko, “Cradle-to-gate burden shifting in lightweighting: an analysis framework and automotive case study,” presented at the American Society for Life Cycle Assessment (ACLCA) 2021 Conference, virtual, September 21–24, 2021. Oral presentation.
99. ► **H. P. H. Liddell** and M. H. Merrill, “Fracture mechanics of delamination in ballistic glass laminates,” presented at the 43<sup>rd</sup> Annual Meeting of the Adhesion Society, Charleston, SC, February 23–26, 2020. Poster. ★
100. ► **H. P. H. Liddell**, G. M. Smith, and L. Erickson, “Extraction of mode mixity and other fracture data from crack paths in pull-off adhesion tests,” presented at the 43<sup>rd</sup> Annual Meeting of the Adhesion Society, Charleston, SC, February 23–26, 2020. Oral presentation. ★
101. ► **H. P. H. Liddell** and M. H. Merrill, “Enhancement of intimate surface contact for dry particle adhesion through mechanical property tailoring of a collection wipe,” presented at the 42<sup>nd</sup> Annual Meeting of the Adhesion Society, Hilton Head, SC, February 17–20, 2019. Poster. ★
102. ► **H. P. H. Liddell** and M. H. Merrill, “Adhesion of explosive particles to textile swab surfaces,” presented at the 2018 American Chemical Society Colloid & Surface Science Symposium, State College, PA, June 10–13, 2018. Oral presentation..
103. ► **H. P. H. Liddell** and M. H. Merrill, “Swab texture effects in swipe sampling for explosives detection,” presented at the 2018 Explosives Detection (TED) Workshop, Ottawa, Canada, April 9–13, 2018. Oral presentation.
104. ► S. B. Brueske, **H. P. H. Liddell**, J. W. Cresko, and A. C. Carpenter, “Manufacturing energy bandwidth studies,” presented at the 39<sup>th</sup> Industrial Energy Technology Conference, New Orleans LA, June 20–22, 2017. Oral presentation. ★
105. ► W. R. Morrow III, S. Das, J. W. Cresko, and **H. P. H. Liddell**, “Net energy consequences of carbon fiber reinforced polymer composites in U.S. light-duty vehicle fleet lightweighting,” presented at the 2016 Composites & Advanced Materials Expo (CAMX), Anaheim CA, September 27–29, 2016. Oral presentation. ★
106. ► **H. P. H. Liddell**, S. B. Brueske, A. C. Carpenter, and J. W. Cresko, “Manufacturing energy intensity and opportunity analysis for fiber-reinforced polymer composites and other lightweight materials,” presented at the 31<sup>st</sup> Technical Conference of the American Society for Composites, Williamsburg VA, September 19–22, 2016. Oral presentation. ★
107. ► D. A. Sunter, W. R. Morrow III, J. W. Cresko, and **H. P. H. Liddell**, “The manufacturing energy intensity of carbon fiber reinforced polymer composites and its effect on life cycle energy use for vehicle door lightweighting,” presented at the 20<sup>th</sup> International Conference on Composite Materials, Copenhagen, Denmark, July 19–24, 2015. Oral presentation. ★
108. ► **H. P. Howard**, J. C. Lambropoulos, and S. D. Jacobs, “Dependence of thermal stresses on substrate thickness during wet processing of large coated optics,” presented at OSA Imaging and Applied Optics Congress: Optical Fabrication and Testing, Monterey CA, June 24–27, 2012. Oral presentation. [Published as H. P. Howard] ★
109. ► K. Mehrotra, **H. P. Howard**, S. D. Jacobs, and J. C. Lambropoulos, “Mechanical characterization of ‘blister’ defects on optical oxide multilayers using nanoindentation,” presented at the 2012 Materials Research Society (MRS) Spring Meeting, San Francisco CA, April 9–13, 2012. Oral presentation. [Published as H. P. Howard] ★
110. ► K. Mehrotra, **H. P. Howard**, S. D. Jacobs, and J. C. Lambropoulos, “Nanoindentation probing of high-aspect-ratio pillar structures on optical multilayer dielectric diffraction gratings,” presented at the 2012 Materials Research Society (MRS) Spring Meeting, San Francisco CA, April 9–13, 2012. Oral presentation. [Published as H. P. Howard] ★
111. ► **H. P. Howard** and K. Mehrotra, “Investigation of the blister defect on MLD gratings using nanoindentation and microscopy,” presented at Nanomaterials Symposium 2011: Frontiers in Materials Science for the 21<sup>st</sup> Century, University of Rochester. Poster. [Published as H. P. Howard]
112. ► **H. P. Howard** and J. C. M. Li, “Interface flow mechanism for tin whisker growth,” presented at the 18<sup>th</sup> Annual MRS Symposium on Materials Research 2010, University of Rochester. Poster. (*Honors: “Best Poster” in student poster competition*). [Published as H. P. Howard]
113. ► J. Cheng, J. Subjeck, **H. P. Howard**, P. T. Vianco, and J. C. M. Li, “Accelerated growth of tin whiskers from evaporated film,” presented at The Minerals, Metals and Materials Society (TMS) Annual Meeting, San Francisco CA, February 15–19, 2009. Poster. (*Honors: third place in student poster competition*). [Published as H. P. Howard]
